ASAHI SASUKE

NEXT GENERATION DUAL LUMEN MICROCATHETER

ASAHI INTECC USA, INC.

ASAHI SASUKE

DELIVERING STABILITY AND CONTROL TO COMPLEX PCI PROCEDURES

1 IMPROVED DESIGN

6.5 mm tip to OTW port negates the need for deep engagement in side branches and complex lesions

Source: TWIN-PASS® brochure

2 DOUBLE STAINLESS STEEL CORE

Double stainless steel core in proximal shaft improves kink resistance and pushability

3 TAPERED SOFT TIP

Incorporates the same tapered soft tip used in ASAHI Corsair Pro® and ASAHI Caravel® to maintain trackability in tortuous vessels

Bifurcations

Complex Lesions

Rx lumen guide wire and distal tip anchor the OTW exit port for greater push force and control.
